

EDITORIAL TRACKS

INDUSTRIAL & SPECIALTY CHEMICALS

C&EN's experienced reporters offer sophisticated coverage of the biggest chemical companies. Our annual Top 50 U.S. and Global Chemical Company rankings are authoritative and widely read. Our Technology and Research sub-track has followed the growth of the popular cannabis trend by highlighting how personal care product manufacturers are infusing their ingredients with cannabis sativa. And our past Specialty & Performance Chemicals sub-track included coverage on how researchers are looking to phase out the use of PFAS based on health, safety, and societal needs.
